SLIDING DOORS & ROOM DIVIDER SYSTEMS

FACET

A profile like a cut gemstone. With Facet, the slender profiles reflect ambient light with varying intensity and add the perfect design touch to interiors as room dividers, cupboard doors, or entrances to walk-in wardrobes.

our Website

Estheteak is the authorized dealer of raumplus GmbH, based in downtown Toronto. raumplus - founded in Germany, manufactures made to measure sliding doors, room dividers, wardrobe systems, shelves, highboards and sideboards with the highest standards of quality and design. Every piece of furniture that leaves our production is individual and made to measure. Whether it is a corner cupboard, sliding doors in a sloping ceiling, a walk-in wardrobe, sliding glass doors, hinge or folding doors as a practical room solution. we make it possible!

ÉSTHETEAK

SLIDING DOOR SYSTEMS

raumplus has been working on the perfection of door running technology for over 35 years. We offer two types of systems: bottom rolling sliding door and the top-hung AIR sliding door.

Maximum size (W xH): 1800 mm [70"] x 3500 mm [137"]
 Minimum size (W xH): 500 mm [19.7"] x 700 mm [27.6"]
 Element weight: max. 180 kg [396 lbs.]
 Panel thickness 4mm [3/16"] to 10mm [3/8"]; 10mm no gasket

ROOM DIVIDERS & WALL PARTITIONS

raumplus has a range of sliding door system which can be used as a room divider, fixed wall and wall partition system. These elements effectively separate sensitive areas in offices while maintaining brightness and visibility through the use of glass panels. All items are **Made in Germany** certified.

HOW DO WE SUPPORT?

PURCHASING

Available as Made-to-Measure assembled doors or frame kits, hardware only for local Fabrication, or QuickShip.

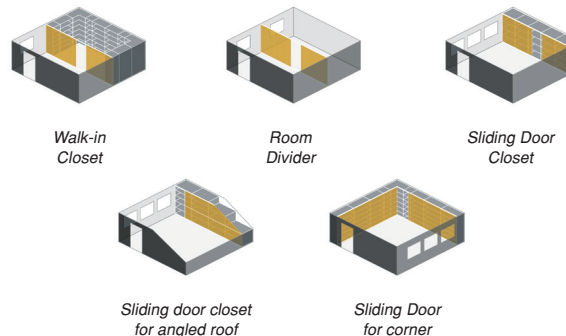

FLEXIBILITY

raumplus sliding systems allow maximum flexibility of space. Simple, easily installed room dividers, elegant office and conference room sliding doors.

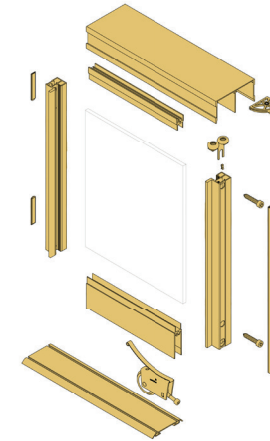

VALUE

We have a raumplus products on display in Toronto and can provide shorter lead times from a raumplus manufacturing unit in the USA. We are happy to provide quotes, drawings, contractor coordination, and order management.

POSSIBLE CONFIGURATIONS

FRAME KIT

This is perfect if you have a custom panel that you would like to use for your sliding doors. Our frame kits are of customized sizes as per your requirement, they come predrilled. All you need to do is insert the panel of your choice and assemble the door.
